Graduate Student, Undergraduate Student, and Volunteer Internships

The University of Minnesota Sea Grant Program offers internships to students enrolled in Minnesota colleges and universities, especially the University of Minnesota (Duluth and Twin Cities campuses), Lake Superior College, the College of St. Scholastica as well as the University of Wisconsin Superior.

- Internship positions are created to help meet your professional development goals by applying knowledge and skills acquired through coursework to help Minnesota Sea Grant fulfill its mission.
- Qualified applicants work closely with outreach, communication, education experts, or scientists to develop, coordinate and execute programs, special events, or research.
- Internships are flexible and usually arranged for credit (sometimes paid hourly wage).
- Credit hours are usually 120-180 hours depending upon institutional requirements.
- Internships can be conducted during an academic semester, or by arrangement.

Outreach:

Communication:
- Science-based writing, media relations, media development, and graphic design.

Education:
- Curriculum development for delivery in K-12, non-formal, or informal settings to youth, families, and diverse cultures.

Research:
- Natural resource or human dimensions research internships may be available.
